- Identification of any new offenses the supervisee has been charged with since the previous Quarterly Treatment Plan.
- Short and long-term behavior change the vendor and the supervisee are seeking to influence in the supervisee.
- The supervisee's expectations of the treatment services.
- Identification of the anticipated involvement of family, supportive collateral contacts, and community support entities.

The curriculum used for Manualized Cognitive Group must be the Change Companies Getting It Right curriculum or Moral Reconciliation Therapy by Correctional Counseling, Inc. The vendor shall provide each participant with a participant workbook. The cost of the workbook shall be incorporated into the unit cost. The U.S. Probation Officer reserves the right to select which of the curriculums the vendor must utilize.

Group size shall be two (2) or more defendants/persons under supervision but no more than twelve (12).

The preferred method of treatment is face-to-face group meetings. The vendor is authorized to provide this service via telehealth on a case-by-case basis. This includes providing health care delivery, diagnosis, consultation, and treatment, and the transfer of medical data through interactive audio, video, or electronic/data communications. The vendor must adhere to and meet the same legal, ethical, and confidentiality standards when providing telehealth. Additionally, the vendor shall obtain consent of the defendant/person on supervision prior to the delivery of telehealth services, and include documentation of the same in the defendant/person on supervision treatment record.

To verify services were performed, the vendor shall complete the sign in log with the defendant/person under supervision's name, date of session, time the session began and concluded and that the session

was conducted telephonically. The assigned officer will follow up with the defendant/person under supervision to ensure the session was completed.

To ensure confidentiality for each session, the provider shall require that each participant verify that he or she is the only individual on that line and no person who is not part of that treatment group is listening. Additionally, each participant will sign a confidentiality agreement before being allowed to participate in treatment via telehealth.

The vendor must have the ability to provide services to the defendants/persons under supervision between 6:00 p.m. and 9:00 p.m. Monday through Friday if necessary, to meet the needs of the defendants/persons under supervision.
